SEPTEMBER 30, 2017

NOTE 1 – DESCRIPTION OF BUSINESS AND ORGANIZATION

Pingtan Marine Enterprise Ltd. (the “Company” or “PME”), formerly China Growth Equity Investment Limited (“CGEI”), incorporated in the Cayman Islands as an exempted limited liability company, was incorporated as a blank check company on January 18, 2010 with the purpose of directly or indirectly acquiring, through a merger, share exchange, asset acquisition, plan of arrangement, recapitalization, reorganization or similar business combination, an operating business, or control of such operating business through contractual arrangements, that has its principal business and/or material operations located in the People’s Republic of China (“PRC”). In connection with its initial business combination, in February 2013, CGEI changed its name to Pingtan Marine Enterprise Ltd.

On October 24, 2012, CGEI and China Dredging Group Co., Ltd (“CDGC” or “China Dredging”) entered into a Merger Agreement providing for the combination of CGEI and CDGC and on October 24, 2012, CGEI also acquired all of the outstanding capital shares and other equity interests of Merchant Supreme Co., Ltd. (“Merchant Supreme”), a company incorporated on June 25, 2012 in the British Virgin Islands (“BVI”), as per a Share Purchase Agreement. On February 25, 2013, the merger between the Company, CDGC and Merchant Supreme became effective and was accounted for as a “reverse merger” and recapitalization since the common shareholders of CDGC and Merchant Supreme (i) owned a majority of the outstanding ordinary shares of the Company immediately following the completion of the transaction, and (ii) have significant influence and the ability to elect or appoint or to remove a majority of the members of the governing body of the combined entity. In accordance with the provision of Financial Accounting Standards Board Accounting Standards Codification (“ASC”) 805-40, CDGC and Merchant Supreme are deemed the accounting acquirers and the Company is the legal acquirer in the transaction and, consequently, the transaction is treated as a recapitalization of the Company. The Company’s assets, liabilities and results of operations were consolidated with the assets, liabilities and results of operations of CDGC, Merchant Supreme and their subsidiaries subsequent to the acquisition date of February 25, 2013. Following the completion of the business combination which became effective on February 25, 2013, CDGC and Merchant Supreme became the wholly-owned subsidiaries of the Company. The ordinary shares, par value \$0.001 per share are listed on The NASDAQ Capital Market under the symbol “PME”.

In order to place increased focus on its fishing business and pursue more effective growth opportunities, the Company decided to exit and sell the specialized dredging services operated by China Dredging. The Company completed the sale of CDGC and its subsidiaries on December 4, 2013.

On February 9, 2015, the Company terminated its existing Variable Interest Entity (“VIE”) agreements, pursuant to an Agreement of Termination dated February 9, 2015, entered into by and among Ms. Honghong Zhuo, Mr. Zhiyan Lin (each a shareholder of Fujian Provincial Pingtan County Ocean Fishing Group Co., Ltd (“Pingtan Fishing”), together the “Pingtan Fishing’s Shareholders”), Pingtan Fishing and Pingtan Guansheng Ocean Fishing Co., Ltd. (“Pingtan Guansheng”). On February 9, 2015, the Pingtan Fishing’s Shareholders transferred 100% of their equity interest in Pingtan Fishing to Fujian Heyue Marine Fishing Development Co., Ltd. (“Fujian Heyue”), pursuant to an Equity Transfer Agreement dated February 9, 2015, entered into by and among the Pingtan Fishing’s Shareholders, Pingtan Fishing and Fujian Heyue. On February 15, 2015, China Agriculture Industry Development Fund Co., Ltd. (“China Agriculture”) invested RMB 400 million (approximately \$65 million) into Pingtan Fishing for an 8% equity interest in Pingtan Fishing. After the restructuring transactions described above, Pingtan Fishing and its entities became the 92% equity-owned subsidiaries of the Company and was no longer a VIE.

Fujian Heyue, through its PRC subsidiary, Pingtang Fishing, engages in ocean fishing with its owned and controlled vessels within the Indian Exclusive Economic Zone, Indo-Pacific waters, Arafura Sea of Indonesia and the international waters of Atlantic and Pacific Oceans.

The Company meets its day-to-day working capital requirements through cash flow provided by operations, bank loans and related parties’ advances. The Indonesian government’s moratorium on fishing licenses renewals creates uncertainty over fishing operations in Indonesian waters. The Company’s forecasts and projections, taking into account operations in Indo-pacific waters, Indian waters and international waters and consideration of opportunities in new fishing territories, shows that the Company has adequate resources to continue in operational existence for the foreseeable future.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

These interim consolidated financial statements of the Company and its subsidiaries are unaudited. In the opinion of management, all adjustments (consisting of normal recurring accruals) and disclosures necessary for a fair presentation of these interim consolidated financial statements have been included. The results reported in the unaudited consolidated financial statements for any interim periods are not necessarily indicative of the results that may be reported for the entire year. The accompanying unaudited consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission and do not include all information and footnotes necessary for a complete presentation of financial statements in conformity with accounting principles generally accepted in the United States (“U.S. GAAP”).

The Company’s unaudited consolidated financial statements include the accounts of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Certain information and footnote disclosures normally included in the annual consolidated financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. These unaudited financial statements should be read in conjunction with the Company’s audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016 filed with the Securities and Exchange Commission on March 23, 2017.

Use of estimates

The preparation of the unaudited consolidated financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses, and the related disclosures at the date of the financial statements and during the reporting period. Actual results could materially differ from these estimates. Significant estimates in the nine months ended September 30, 2017 and 2016 include allowance for doubtful accounts, reserve for inventories, the useful life of property, plant and equipment, assumptions used in assessing impairment of long-term assets and valuation of deferred tax assets and accruals for taxes due.

Cash

Cash consists of cash on hand and cash in banks. The Company maintains cash with various financial institutions in the PRC and Hong Kong and none of these deposits are covered by insurance. At September 30, 2017 and December 31, 2016, cash balances in the PRC were \$22,217,605 and \$683,307, respectively, and cash balances in Hong Kong were \$34,297 and \$137,089, respectively, and are uninsured. The Company has not experienced any losses in bank accounts and believes it is not exposed to any risks on its cash in bank accounts.

Restricted cash

Restricted cash consists of cash deposits held by China Development Bank to secure short term bank loans from China Development Bank. At September 30, 2017 and December 31, 2016, restricted cash amounted \$2,320,360 and \$2,911,922, respectively.

Fair value of financial instruments

The Company adopted the guidance of ASC Topic 820 for fair value measurements, which clarifies the definition of fair value, prescribes methods for measuring fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1-Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2-Inputs are unadjusted quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.

Level 3-Inputs are unobservable inputs that reflect the reporting entity’s own assumptions on what assumptions the market participants would use in pricing the asset or liability based on the best available information.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The carrying amounts reported in the consolidated balance sheets for cash, restricted cash, accounts receivable, inventories, advances to suppliers, prepaid expenses, prepaid expenses – related party, other receivables, other receivables – related party, accounts payable, accounts payable – related parties, bank loans, accrued liabilities and other payables, accrued liabilities and other payables – related party, and due to related parties approximate their fair market value based on the short-term maturity of these instruments. As of September 30, 2017, the Company does not have any assets or liabilities that are measured on a recurring basis at fair value. The Company's short-term bank borrowings are considered Level 2 financial instruments measured at fair value on a non-recurring basis as of September 30, 2017. As of September 30, 2017, the Company does not have any level 3 financial instruments.

ASC Topic 825-10 "Financial Instruments" allows entities to voluntarily choose to measure certain financial assets and liabilities at fair value (fair value option). The fair value option may be elected on an instrument-by-instrument basis and is irrevocable, unless a new election date occurs. If the fair value option is elected for an instrument, unrealized gains and losses for that instrument should be reported in earnings at each subsequent reporting date. The Company did not elect to apply the fair value option to any outstanding instruments.

Accounts receivable

Accounts receivable are presented net of an allowance for doubtful accounts. The Company maintains an allowance for doubtful accounts for estimated losses. The Company reviews the accounts receivable on a periodic basis and makes general and specific allowance when there is doubt as to the collectability of individual balances. In evaluating the collectability of individual receivable balance, the Company considers many factors, including the age of the balance, a customer's historical payment history, its current credit-worthiness and current economic trends. Accounts are written off after exhaustive efforts at collection. The Company only grants credit terms to established customers who are deemed to be financially responsible. Credit periods to customers are within 180 days after customers received the purchased goods. At September 30, 2017 and December 31, 2016, the Company established, based on a review of its outstanding balances, an allowance for doubtful accounts in the amounts of \$490,566 and \$252,558, respectively.

Inventories

Inventories, consisting of frozen fish and marine catches, are stated at the lower of cost or market utilizing the weighted average method. The cost of inventories is primarily comprised of fuel, freight, depreciation, direct labor, consumables, government levied charges and taxes. Consumables include fishing nets and metal containers used by fishing vessels. The Company's fishing fleets in Indo-pacific waters, Indian waters and the international waters of Atlantic and Pacific Oceans operate throughout the year, although the May to July period demonstrates lower catch quantities compared to the October to January period, which is the peak season.

An allowance is established when management determines that certain inventories may not be saleable. If inventory costs exceed expected market value due to obsolescence or quantities in excess of expected demand, the Company will record reserve for the difference between the cost and the market value. These reserves are recorded based on estimates. At September 30, 2017 and December 31, 2016, the Company recorded a reserve for inventories in the amount of \$2,704,013 and \$0, respectively.

When recorded, inventory reserves are intended to reduce the carrying value of inventories to their net realizable value. The Company regularly evaluates the ability to realize the value of inventories based on a combination of factors including the following: forecasted sales, estimated current and future market value.

Advances to suppliers

Advances to suppliers represent the cash paid in advance for the purchase of raw material from suppliers. The advance payments are intended to ensure preferential pricing and delivery. The amounts advanced under such arrangements totaled \$939,162 and \$3,969,351 at September 30, 2017 and December 31, 2016, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fishing licenses

Each of the Company’s fishing vessels requires an approval from Ministry of Agriculture of the People’s Republic of China to carry out ocean fishing projects in foreign territories. These approvals are valid for a period from three to twelve months, and are awarded to the Company at no cost. The Company applies for the renewal of the approval prior to expiration to avoid interruptions of fishing vessels’ operations. Each of our fishing vessels operating in Indonesian waters requires a fishing license granted by the authority in Indonesia.

Investment in unconsolidated company – Global Deep Ocean

The Company uses the equity method of accounting for its investment in, and earning or loss of, companies that it does not control but over which it does exert significant influence. The Company considers whether the fair value of its equity method investment has declined below its carrying value whenever adverse events or changes in circumstances indicate that recorded value may not be recoverable. If the Company considers any decline to be other than temporary (based on various factors, including historical financial results and the overall health of the investee), then a write-down would be recorded to estimated fair value. See Note 7 for discussion of equity method investment.

Property, plant and equipment

Property, plant and equipment are carried at cost and are depreciated on a straight-line basis over the estimated useful lives of the assets. The cost of repairs and maintenance is expensed as incurred; major replacements and improvements are capitalized. When assets are retired or disposed of, the cost and accumulated depreciation are removed from the accounts, and any resulting gains or losses are included in income in the year of disposition. The Company examines the possibility of decreases in the value of fixed assets when events or changes in circumstances reflect the fact that their recorded value may not be recoverable.

The estimated useful lives of the assets are as follows:

	Estimated useful life
Fishing vessels	10 - 20 Years
Vehicles	5 Years
Office and other equipment	3 - 5 Years

Expenditures for repairs and maintenance, which do not extend the useful life of the assets, are expensed as incurred.

Capitalized interest

Interest associated with the construction of fishing vessels is capitalized and included in the cost of the fishing vessels. When no debt is incurred specifically for the construction of a fishing vessel, interest is capitalized on amounts expended on the construction using weighted-average cost of the Company’s outstanding borrowings. Capitalization of interest ceases when the construction is substantially complete or the construction activity is suspended for more than a brief period. The Company capitalized interest of \$129,847 and \$128,279 for the three months ended September 30, 2017 and 2016, respectively, in the fishing vessels under construction. The Company capitalized interest of \$192,268 and \$544,984 for the nine months ended September 30, 2017 and 2016, respectively, in the fishing vessels under construction.

Impairment of long-lived assets

In accordance with ASC Topic 360, the Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be fully recoverable, or at least annually. The Company recognizes an impairment loss when the sum of expected undiscounted future cash flows is less than the carrying amount of the asset. The amount of impairment is measured as the difference between the asset’s estimated fair value and its book value. The Company did not record any impairment charge for the three and nine months ended September 30, 2017 and 2016.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition

Pursuant to the guidance of ASC Topic 605 and ASC Topic 360, the Company recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the purchase price is fixed or determinable and collectability is reasonably assured. With respect to the sale of frozen fish and other marine catches to third party customers, most of which are sole proprietor regional wholesalers in China, the Company recognizes revenue when customers pick up purchased goods at the Company's cold storage warehouse, after payment is received by the Company or credit sale is approved by the Company for recurring customers who have a history of financial responsibility. The Company does not offer promotional payments, customer coupons, rebates or other cash redemption offers to its customers. The Company does not accept returns from customers.

Government grant

Government grants are recognized when there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognized as income over the periods necessary to match the grant on a systematic basis to the costs that it is intended to compensate. Where the grant relates to an asset, it is credited to the cost of the asset and is released to the income statement over the expected useful life in a consistent manner with the depreciation method for the relevant asset.

Income taxes

Under the current laws of the Cayman Islands and British Virgin Islands, the Company and Merchant Supreme are not subject to any income or capital gains tax, and dividend payments that the Company may make are not subject to any withholding tax in the Cayman Islands or British Virgin Islands. Under the current laws of Hong Kong, Prime Cheer is not subject to any capital gains tax and dividend payments are not subject to any withholding tax in Hong Kong.

The Company is not incorporated nor does it engage in any trade or business in the United States and is not subject to United States federal income taxes. The Company did not derive any significant amount of income subject to such taxes after completion of the Share Exchange and accordingly, no relevant tax provision is made in the accompanying unaudited consolidated statements of operations and comprehensive income (loss).

The Company's subsidiary, Pingtan Fishing, is a qualified ocean fishing enterprise certified by the Ministry of Agriculture of the PRC. The qualification is renewed on April 1 each year. Pingtan Fishing is exempt from income tax derived from its ocean fishing operations in the periods it processes a valid Ocean Fishing Enterprise Qualification Certificate issued by the Ministry of Agriculture of the PRC.

The new China's Enterprise Income Tax Law ("EIT Law") also provides that an enterprise established under the laws of foreign countries or regions but whose "de facto management body" is located in the PRC be treated as a resident enterprise for PRC tax purposes and consequently be subject to the PRC income tax at the rate of 25% for its worldwide income. The Implementing Rules of the new EIT Law merely defines the location of the "de facto management body" as "the place where the exercising, in substance, of the overall management and control of the production and business operation, personnel, accounting, properties, etc., of a non-PRC company is located." On April 22, 2009, the PRC State Administration of Taxation further issued a notice entitled "Notice Regarding Recognizing Offshore-Established Enterprises Controlled by PRC Shareholders as Resident Enterprises Based on Their Place of Effective Management." Under this notice, a foreign company controlled by a PRC company or a group of PRC companies shall be deemed as a PRC resident enterprise if (i) the senior management and the core management departments in charge of its daily operations mainly function in the PRC; (ii) its financial decisions and human resource decisions are subject to decisions or approvals of persons or institutions in the PRC; (iii) its major assets, accounting books, company seals, minutes and files of board meetings and shareholders' meetings are located or kept in the PRC; and (iv) more than half of the directors or senior management personnel with voting rights reside in the PRC. Based on a review of surrounding facts and circumstances, the Company does not believe that it is likely that its operations outside of the PRC should be considered a resident enterprise for PRC tax purposes. However, due to limited guidance and implementation history of the new EIT Law, should the Company be treated as a resident enterprise for PRC tax purposes, the Company will be subject to PRC tax on worldwide income at a uniform tax rate of 25% retroactive to May 3, 2012.

In addition, Pingtan Fishing is not subject to foreign income taxes for its operations in either India and Indonesia Exclusive Economic Zones or the Western and Central Pacific Fisheries Commission areas.

Deferred income tax assets and liabilities are determined based upon differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be effective when the differences are expected to reverse.

Deferred tax assets are reduced by a valuation allowance to the extent that management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the consolidated statements of operations and comprehensive income (loss) in the period that includes the enactment date.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income taxes (continued)

The Company has not recorded deferred income taxes applicable to undistributed earnings of the subsidiaries located in the PRC because it is the present intention of management to reinvest the undistributed earnings indefinitely in PRC. The cumulative undistributed earnings from PRC subsidiaries amounted to approximately \$206.4 million and \$179.3 million as of September 30, 2017 and December 31, 2016, respectively, which are included in consolidated retained earnings. Generally, such earnings become subject to the PRC tax upon the remittance of dividends and under certain other circumstances. It is not practicable to estimate the amount of deferred tax liability on such undistributed earnings.

The Company prescribes a more-likely-than-not threshold for financial statement recognition and measurement of a tax position taken in the tax return. This interpretation also provides guidance on de-recognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, accounting for income taxes in interim periods and income tax disclosures. As of September 30, 2017 and December 31, 2016, there were no amounts that had been accrued with respect to uncertain tax positions.

Shipping and handling costs

Shipping and handling costs are included in selling expense and totaled \$21,981 and \$8,399 for the three months ended September 30, 2017 and 2016, respectively. Shipping and handling costs are totaled \$221,843 and \$97,786 for the nine months ended September 30, 2017 and 2016, respectively.

Employee benefits

The Company makes mandatory contributions to the PRC government's health, retirement benefit and unemployment funds in accordance with the relevant Chinese social security laws. The costs of these payments are charged to the same accounts as the related salary costs in the same period as the related salary costs incurred. Employee benefit costs totaled \$123,925 and \$47,727 for the three months ended September 30, 2017 and 2016, respectively. Employee benefit costs totaled \$307,376 and \$223,123 for the nine months ended September 30, 2017 and 2016, respectively.

Advertising

Advertising is expensed as incurred and is included in selling expense on the accompanying consolidated statements of operations and comprehensive income (loss) and totaled \$21,058 and \$0 for the three months ended September 30, 2017 and 2016, respectively. Advertising totaled \$50,171 and \$27,414 for the nine months ended September 30, 2017 and 2016, respectively.

Research and development

Research and development costs are expensed as incurred and are included in general and administrative expense. The Company did not incur any research and development costs during the three and nine months ended September 30, 2017 and 2016.

Foreign currency translation

The reporting currency of the Company is the U.S. dollar. The functional currency of the parent company and subsidiaries of Merchant Supreme and Prime Cheer is the U.S. dollar and the functional currency of the Company’s subsidiaries of Pingtan Guansheng, Fujian Heyue and Pingtan Fishing is the Chinese Renminbi (“RMB”). For the subsidiaries of Pingtan Guansheng, Fujian Heyue and Pingtan Fishing, whose functional currencies are the RMB, results of operations and cash flows are translated at average exchange rates during the period, assets and liabilities are translated at the unified exchange rate at the end of the period, and equity is translated at historical exchange rates. As a result, amounts relating to assets and liabilities reported on the statements of cash flows may not necessarily agree with the changes in the corresponding balances on the balance sheets. Translation adjustments resulting from the process of translating the local currency financial statements into U.S. dollars are included in determining comprehensive income. The cumulative translation adjustment and effect of exchange rate changes on cash for the nine months ended September 30, 2017 and 2016 was \$924,482 and \$(284,053), respectively. Transactions denominated in foreign currencies are translated into the functional currency at the exchange rates prevailing on the transaction dates. Assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rates prevailing at the balance sheet date with any transaction gains and losses that arise from exchange rate fluctuations on transactions denominated in a currency other than the functional currency are included in the results of operations as incurred.

All of the Company’s revenue transactions are transacted in the functional currency of the operating subsidiaries. The Company does not enter into any material transaction in foreign currencies. Transaction gains or losses have not had, and are not expected to have, a material effect on the results of operations of the Company.

The foreign currency exchange rates were obtained from www.safe.gov.com. Asset and liability accounts at September 30, 2017 and December 31, 2016 were translated at 6.6369 RMB to \$1.00 and at 6.9370 RMB to \$1.00, respectively, which were the exchange rates on the balance sheet dates. Equity accounts were stated at their historical rate. The average translation rates applied to the statements of operations and comprehensive income (loss) for the nine months ended September 30, 2017 and 2016 were 6.7983 RMB and 6.5792 RMB to \$1.00, respectively. Cash flows from the Company’s operations are calculated based upon the local currencies using the average translation rate.

Earnings per share

ASC Topic 260 “Earnings per Share,” requires presentation of both basic and diluted earnings per share (“EPS”) with a reconciliation of the numerator and denominator of the basic EPS computation to the numerator and denominator of the diluted EPS computation. Basic EPS excludes dilution. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity.

Basic earnings per share are computed by dividing net income (loss) available to common stockholders by the weighted average number of shares of common stock outstanding during the period. Diluted net income (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during each period. Potentially dilutive common shares consist of the common shares issuable upon the exercise of common stock warrants (using the treasury stock method). Common stock equivalents are not included in the calculation of diluted earnings per share if their effect would be anti-dilutive. In a period in which the Company has a net loss, all potentially dilutive securities are excluded from the computation of diluted shares outstanding as they would have had an anti-dilutive impact. The following table presents a reconciliation of basic and diluted net income (loss) per share:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Net income (loss) available to owners of the company for basic and diluted net income (loss) per share of ordinary stock	\$ 5,952,924	\$ (12,823,402)	\$ 24,830,489	\$ (22,152,230)
Weighted average ordinary stock outstanding - basic and diluted	79,055,053	79,055,053	79,055,053	79,055,053
Net income (loss) per ordinary share attributable to owners of the Company - basic and diluted	<u>\$ 0.08</u>	<u>\$ (0.16)</u>	<u>\$ 0.31</u>	<u>\$ (0.28)</u>

For the three and nine months ended September 30, 2017 and 2016, warrants to purchase 8,966,667 shares of ordinary stock have not been included in the calculation of diluted earnings per share in order to avoid any anti-dilutive effect.

Non-controlling interest

On February 15, 2015, China Agriculture invested RMB 400 million (approximately \$65 million) into Pingtan Fishing and acquired an 8% equity interest in Pingtan Fishing. As of September 30, 2017, China Agriculture owned 8% of the equity interest of Pingtan Fishing, which was not under the Company's control.

Related parties

Parties are considered to be related to the Company if the parties, directly or indirectly, through one or more intermediaries, control, are controlled by, or are under common control with the Company. Related parties also include principal owners of the Company, its management, members of the immediate families of principal owners of the Company and its management and other parties with which the Company may deal with if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. The Company discloses all significant related party transactions.

Comprehensive income (loss)

Comprehensive income (loss) is comprised of net income (loss) and all changes to the statements of stockholders' equity, except those due to investments by stockholders, changes in paid-in capital and distributions to stockholders. For the Company, comprehensive income (loss) for the three and nine months ended September 30, 2017 and 2016 included net income (loss) and unrealized gain from foreign currency translation adjustments.

Segment information

ASC 280 "Segment reporting" establishes standards for reporting information on operating segments in interim and annual financial statements. All of the Company's operations are considered by the chief operating decision maker to be aggregated in one reportable operating segment. All of the Company's customers are in the PRC and all income is derived from ocean fishery.

Commitments and contingencies

In the normal course of business, the Company is subject to contingencies, including legal proceedings and environmental claims arising out of the normal course of businesses that relate to a wide range of matters, including among others, contracts breach liability. The Company records accruals for such contingencies based upon the assessment of the probability of occurrence and, where determinable, an estimate of the liability. Management may consider many factors in making these assessments including past history, scientific evidence and the specifics of each matter.

The Company's management has evaluated all such proceedings and claims that existed as of September 30, 2017 and December 31, 2016. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Company's financial position, liquidity or results of operations.

Concentrations of credit, economic and political risks

The Company's operations are carried out in the PRC. Accordingly, the Company's business, financial condition and results of operations may be influenced by the political, economic and legal environment in the PRC, and by the general state of the PRC's economy. The Company's operation in the PRC is subject to special considerations and significant risks not typically associated with companies in North America and Western Europe. These include risks associated with, among others, the political, economic and legal environment and foreign currency exchange. The Company's results may be adversely affected by changes in the political and social conditions in the PRC, and by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion, remittances abroad, and rates and methods of taxation, among other things.

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash and trade accounts receivable. All of the Company's cash is maintained with state-owned banks within the PRC and Hong Kong, and none of these deposits are covered by insurance. The Company has not experienced any losses in such accounts and believes it is not exposed to any risks on its cash in bank accounts. A portion of the Company's sales are credit sales which are primarily to customers whose abilities to pay are dependent upon the industry economics prevailing in these areas; however, concentrations of credit risk with respect to trade accounts receivables is limited due to generally short payment terms. The Company also performs ongoing credit evaluations of its customers to help further reduce credit risk.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Concentrations of credit, economic and political risks (continued)

According to the sale agreement signed on December 4, 2013, the Company does not own 20 fishing vessels but has the leased operating rights to operate these vessels which are owned by a related company, Fuzhou Honglong Ocean Fishery Co., Ltd (“Hong Long”) and the Company is entitled to 100% of net profit (loss) of the vessels. The Company has latitude in establishing price and discretion in supplier selection. There were no economic risks associated with the leased operating rights but the Company may need to bear the operation risks and credit risks as aforementioned.

As the Company has historically derived the majority of its revenue from Indonesian waters, the suspension of fishing operation in this area has had and will continue to have a significant negative impact on the Company.

Recent accounting pronouncements

In May 2014, the FASB issued ASU No. 2014-09, “Revenue from Contracts with Customers (Topic 606).” This guidance supersedes current guidance on revenue recognition in Topic 605, “Revenue Recognition.” In addition, there are disclosure requirements related to the nature, amount, timing, and uncertainty of revenue recognition. In August 2015, the FASB issued ASU No. 2015-14 to defer the effective date of ASU No. 2014-09 for all entities by one year. For public business entities that follow U.S. GAAP, the deferral results in the new revenue standard are being effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017, with early adoption permitted for interim and annual periods beginning after December 15, 2016. The Company will apply the new revenue standard beginning January 1, 2018, and will not early adopt. The Company has analyzed the Company’s revenue from contracts with customers in accordance with the new revenue standard to determine the impact on the Company’s consolidated financial statements. Based on the preliminary assessment, the Company determined that there would be no material impact on its financial statements upon adopting the new revenue standard, but will increase the disclosure requirements about the Company’s revenue recognition and related information. The Company plans to continue the evaluation, analysis, and documentation of its adoption of ASU 2014-09 (including those subsequently issued updates that clarify ASU 2014-09’s provisions) throughout 2017 as the Company works towards the implementation and finalizes its determination of the impact that the adoption will have on its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, “Leases (Subtopic 842).” The new guidance requires lessees to recognize assets and liabilities arising from leases as well as extensive quantitative and qualitative disclosures. A lessee will need to recognize on its balance sheet a right-of-use asset and a lease liability for the majority of its leases (other than leases that meet the definition of a short-term lease). The lease liabilities will be equal to the present value of lease payments. The right-of-use asset will be measured at the lease liability amount, adjusted for lease prepayment, lease incentives received and the lessee’s initial direct costs. The standard is effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted. ASU 2016-02 is required to be applied using the modified retrospective approach for all leases existing as of the effective date and provides for certain practical expedients. The Company is currently evaluating the impact on its consolidated financial position and results of operations upon adopting these amendments. Based on its preliminary evaluation, the Company expects to start recognize lease assets and lease liabilities for its operating leases on its statements of financial position as of the end of its first fiscal quarter of 2019 and its comparative period presented.

In January 2017, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business, in an effort to clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The amendments of this ASU are effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The adoption of this guidance is not expected to have a material impact on the Company’s consolidated financial statements.

In January 2017, the FASB issued ASU 2017-04, “Intangibles—Goodwill and Other (Topic 350): simplifying the test for goodwill impairment”, the guidance removes Step 2 of the goodwill impairment test, which requires a hypothetical purchase price allocation. Goodwill impairment will now be the amount by which a reporting unit’s carrying value exceeds its fair value, not the difference between the fair value and carrying amount of good will which was the step 2 test before. The ASU should be adopted on a prospective basis for the annual or any interim goodwill impairment tests beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The company is currently evaluating the impact of adopting this standard on its consolidated financial statements.

Less: reserve for inventories	(2,704,013)	-
	<u>\$ 3,000,785</u>	<u>\$ 8,811,111</u>

An allowance is established when management determines that certain inventories may not be saleable. If inventory costs exceed expected market value due to obsolescence or quantities in excess of expected demand, the Company will record reserve for the difference between the cost and the market value. These reserves are recorded based on estimates.

NOTE 5 – OTHER RECEIVABLES

At September 30, 2017 and December 31, 2016, other receivables consisted of the following:

	September 30, 2017	December 31, 2016

NOTE 6 – COST METHOD INVESTMENT

At September 30, 2017 and December 31, 2016, cost method investment amounted to \$3,164,128 and \$3,027,245, respectively. The investment represents the Company’s subsidiary, Pingtan Fishing’s minority interest in Fujian Pingtan Rural-Commercial Bank Joint-Stock Co., Ltd. (“Pingtan Rural-Commercial Bank”), a private financial institution. Pingtan Fishing completed its registration as a shareholder on October 17, 2012 and paid RMB 21 million (approximately \$3.2million) to subscribe 5% of the common stock of Pingtan Rural-Commercial Bank. Pingtan Fishing held 15,113,250 shares and accounted for 4.8% investment in the total equity investment of the bank as of September 30, 2017 and December 31, 2016.

The Company uses the cost method of accounting to record its investment since Pingtan Fishing does not have the ability to exercise significant influence over the operating and financing activities of Pingtan Rural-Commercial Bank. In accordance with to ASC 325, Long-term investment for which there are no quoted market prices, a reasonable estimate of fair value could not be made without incurring excessive costs. The Company monitors its investment in the non-marketable security and will recognize, if ever existing, a loss in value which is deemed to be other than temporary. The Company determined that there was no impairment on this investment as of September 30, 2017 and December 31, 2016.

NOTE 7 – EQUITY METHOD INVESTMENT

At September 30, 2017 and December 31, 2016, equity method investment amounted to \$30,054,827 and \$28,493,273, respectively. The investment represents the Company’s subsidiary, Pingtan Fishing’s interest in Global Deep Ocean. On June 12, 2014, Pingtan Fishing incorporated Global Deep Ocean with other two unrelated companies in PRC. In April 2017, these two companies sold their shares to another unrelated party, Zhen Lin. As of September 30, 2017, Pingtan Fishing and Zhen Lin accounted for 20% and 80% of the total ownership, respectively.

Global Deep Ocean will process, cold storage, and transport Deep Ocean fishing products. Total registered capital of Global Deep Ocean is RMB 1 billion (approximately \$150.7 million) and as of September 30, 2017, Pingtan Fishing had contributed its share of registered capital of RMB 200 million (approximately \$30.1 million).

The Company treats the equity investment in the consolidated financial statements under the equity method. Under the equity method, the investment is initially recorded at cost, adjusted for any excess of the Company’s share of the incorporated-date fair values of the investee’s identifiable net assets over the cost of the investment (if any). Thereafter, the investment is adjusted for the post incorporation change in the Company’s share of the investee’s net assets and any impairment loss relating to the investment. For the three months ended September 30, 2017 and 2016, the Company’s share of Global Deep Ocean’s net loss was \$7,333 and \$6,968, respectively, which was included in loss on equity method investment in the accompanying consolidated statements of operations and comprehensive income (loss). For the nine months ended September 30, 2017 and 2016, the Company’s share of Global Deep Ocean’s net loss was \$27,500 and \$25,095, respectively, which was included in loss on equity method investment in the accompanying consolidated statements of operations and comprehensive income (loss).

The tables below present the summarized financial information, as provided to the Company by the investee, for the unconsolidated company:

NOTE 13 – SHAREHOLDERS' EQUITY

Warrants

An aggregate of 30,329,883 ordinary shares and 3,966,667 warrants were originally issued by CGEI to Chum Capital Group Limited, in connection with a private placement prior to CGEI's initial public offering, and that became exercisable for the Company's ordinary shares beginning on March 27, 2013 (the "Sponsor Warrants"). The Sponsor Warrants have been registered for resale by the selling security-holders under Form S-3 filed on June 17, 2013 and declared effective on June 19, 2013. On June 2, 2011, the Company sold 5,000,000 units, at an offering price of \$10.00 per unit, generating gross proceeds of \$50,000,000. Each unit consisted of one ordinary share, \$0.001 par value, of the Company and one purchase warrant. Each warrant will entitle the holder to purchase from the Company one ordinary share at an exercise price of \$12.00 per share commencing upon the completion of a business combination and expiring five years from the consummation of a business combination. The Company also registered an aggregate of 8,966,667 ordinary shares that are issuable by the Company upon exercise of the 3,966,667 Sponsor Warrants and 5,000,000 warrants that were issued in the CGEI's initial public offering (the "Public Warrants") and that became exercisable upon the consummation of the transactions contemplated by that certain Agreement and Plan of Merger, dated as of October 24, 2012, between CGEI, CDGC, China Growth Dredging Sub Ltd. and Xinrong Zhuo and by that certain Share Purchase Agreement, dated as of October 24, 2012, between CGEI and Merchant Supreme.

Each Public Warrants and Sponsor Warrant (the "Warrants") entitles the registered holder thereof to purchase one of the Company's ordinary shares upon payment of the exercise price of \$12.00 per share.

The Sponsor Warrants are identical to the Public Warrants except that the Sponsor Warrants will be exercisable for cash or on a cashless basis, at the holder's option, and will not be redeemable by the Company, in each case so long as they are still held by these purchases or their transferees.

In accordance with U.S. GAAP, the Company accounted for the Warrants as equity instruments.

There were no stock warrants issued, expired/terminated/forfeited, exercised during the nine months ended September 30, 2017.

The following table summarizes the shares of the Company's ordinary stock issuable upon exercise of warrants outstanding and exercisable at September 30, 2017:

Exercise price	Warrants outstanding			Exercise price	Warrants exercisable	
	Number outstanding at September 30, 2017	Weighted average remaining contractual life (years)	Weighted average exercise price		Number exercisable at September 30, 2017	Weighted average exercise price

Statutory reserve

Pingtan Guansheng, Fujian Heyue, Pingtan Fishing, Pingtan Dingxin, Pingtan Duoying and Pingtan Ruiying operate in the PRC, are required to reserve 10% of their net profits after income tax, as determined in accordance with the PRC accounting rules and regulations. Appropriation to the statutory reserve by the Company is based on profit arrived at under PRC accounting standards for business enterprises for each year. The statutory reserves of the Company represent the statutory reserves of the above-mentioned companies as required under the PRC law.

The profit arrived at must be set off against any accumulated losses sustained by the Company in prior years, before allocation is made to the statutory reserve. Appropriation to the statutory reserve must be made before distribution of dividends to shareholders. The appropriation is required until the statutory reserve reaches 50% of the registered capital. This statutory reserve is not distributable in the form of cash dividends. As of December 31, 2016, the Company appropriated the required 50% of its registered capital to statutory reserve for Fujian Heyue. Accordingly, no additional statutory reserve for Fujian Heyue is required for the three months ended September 30, 2017. The Company will make appropriation to statutory reserve for Pingtan Fishing by the end of year 2017.

Pingtan Guansheng, Pingtan Dingxin, Pingtan Duoying and Pingtan Ruiying had sustained losses since their establishments. No appropriation to statutory reserves for them was required as they incurred recurring net losses.

NOTE 14 – CERTAIN RISKS AND CONCENTRATIONS

Credit risk

At September 30, 2017 and December 31, 2016, the Company's cash included bank deposits in accounts maintained within the PRC and Hong Kong where there are currently no rules or regulations in place for obligatory insurance to cover bank deposits in event of bank failure. However, the Company does not experience any losses in such accounts and believes it is not exposed to any significant risks on its cash in bank accounts.

Fishing vessels construction agreement

On February 20, 2017, the Company entered into an agreement with Huanghai Ship Construction Co., Ltd. ("Huanghai") related to the construction of 2 squid jigging vessels. The project requires a total investment of RMB 67.0 million (approximately \$10.0 million). The funds are required to be invested over the construction period of the project. As of September 30, 2017, Pingtan Fishing has paid RMB 35.5 million (approximately \$5.3 million) of the total investment.

NOTE 16 – SUBSEQUENT EVENTS

On October 10, 2017, the Company repaid a short-term bank loan of \$1,080,000 to Fujian Haixia Bank in accordance with the loan repayment schedule.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of the results of operations and financial condition of Pingtan Marine Enterprise Ltd. for the nine months ended September 30, 2017 and 2016 should be read in conjunction with the Pingtan Marine Enterprise Ltd. unaudited financial statements and the notes thereto contained elsewhere in this report. Our discussion includes forward-looking statements based upon current expectations that involve risks and uncertainties, such as our plans, objectives, expectations and intentions. Actual results and the timing of events could differ materially from those anticipated in these forward-looking statements as a result of a number of factors, including those set forth under the Risk Factors, Special Note Regarding Forward-Looking Statements and Business sections in our Form 10-K as filed with the Securities and Exchange Commission on March 23, 2017. We use words such as “anticipate,” “estimate,” “plan,” “project,” “continuing,” “ongoing,” “expect,” “believe,” “intend,” “may,” “will,” “should,” “could,” and similar expressions to identify forward-looking statements.

Unless otherwise indicated, references to the “Company,” “us” or “we” refer to Pingtan Marine Enterprise Ltd. and its subsidiaries. All amounts expressed below are in US dollars.

Overview

We are a marine enterprise group primarily engaging in ocean fishing through our PRC operating subsidiary, Fujian Provincial Pingtan County Ocean Fishing Group Co., Ltd., or Pingtan Fishing. We harvest a variety of fish species with many of our owned or licensed vessels operating within the Indian Exclusive Economic Zone, Indo-Pacific waters, the Arafura Sea of Indonesia and international waters of Atlantic and Pacific Oceans. We provide high quality seafood to a diverse group of customers including distributors, restaurant owners and exporters in the PRC.

In June 2013, we expanded our fleet from 40 to 86 vessels through a purchase of 46 fishing trawlers. We began operating these vessels in the third quarter of 2013 and have been entitled to net profits from their operation. Each vessel carries a crew of 10 to 15 persons. These vessels have resulted in additional carrying capacity of approximately 45,000 to 50,000 tons of fish.

In September 2013, we further increased our fleet to 106 vessels with the acquisition of 20 newly-built fishing trawlers. These vessels have a run-in period of 3 - 6 months, during which each is placed into the sea for testing prior to full operation. At full operation, each vessel is capable of harvesting 900 to 1,000 tons of fish.

Subsequent to our fleet expansions, in September 2013, the Ministry of Agriculture of the People’s Republic of China (“MOA”) issued a notification that it would suspend accepting shipbuilding applications for tuna harvesting vessels, squid harvesting vessels, Pacific saury harvesting vessels, trawlers operating on international waters, seine on international waters, and trawlers operating on the Arafura Sea, Indonesia. We believe the announcement is a positive indicator for long-term stability and balance in China’s fishing industry.

On December 4, 2013, in connection with the sale of CDGC to Hong Long, a related party, we acquired 25-year operating license rights in connection with the lease of 20 fishing drifters for the appraised fair market value of approximately \$216.1 million, whereby we are entitled to 100% of the operations and net profits (losses) from the vessels for the term of the lease.

In September 2014, we further expanded our fleet to 129 vessels with the addition of 3 newly-built light luring seine vessels. At full operation, each vessel is capable of harvesting 2,000 tons of fish.

In June 2015, we purchased 4 longline fishing vessels and 2 squid jigging vessels for the appraised fair market value of approximately \$56.2 million. These vessels are primarily focused on catching tuna and squid.

In March 2017, we purchased 1 refrigerated transport vessel and 4 squid jigging vessels for the appraised fair market value of approximately \$38.5 million.

In October 2016, we deployed 13 vessels, which were granted fishing licenses by the Ministry of Agriculture and Fisheries of the Democratic Republic of Timor-Leste (“MAF”), to operate in the Indo-Pacific waters of the country. These fishing licenses were valid for one year. And the vessels were purchased from Hong Long in June 2013. In September 2017, we were informed that the fishing licenses of the 13 vessels were suspended and the vessels were docked in the port. The MAF has alleged and is investigating whether false statements were made during the licensing process and the vessels were simultaneously registered in Indonesia. We dispute these allegations.

As of September 30, 2017, we own 91 trawlers, 15 drifters, 6 squid jigging vessels, 4 longline fishing vessels, 3 light luring seine vessels, 1 transport vessel and have exclusive operating license rights to 20 drifters. We are the second largest China-based fishery company operating its vessels outside of China waters and our fleet has an average remaining useful life of approximately 12.8 years. Among the 140 vessels, 12 are located in the Bay of Bengal in India; 9 are located in international waters; 13 are located in the Democratic Republic of Timor-Leste; and 2 have finished renovation in October 2017 and will be deployed to international waters. The remaining vessels are currently located in Indonesia but are not operating due to the moratorium discussed below.

We catch nearly 20 different species of fish including ribbon fish, croaker fish, pomfret, Spanish mackerel, conger eel, squid and shrimp. All of our catch is shipped back to China. Our fishing vessels transport frozen catch to a cold storage warehouse nearby onshore fishing bases. We then arrange chartered transportation ships to deliver frozen stocks to cold storage warehouses located in one of China’s largest seafood trading centers, Mawei Seafood Market in Fujian Province.

We derive our revenue primarily from the sale of frozen seafood products. We sell our products directly to customers including distributors, restaurant owners and exporters. Most of our customers have long-term, cooperative relationships with us. Our existing customers also introduce new customers to us from time to time. Our operating results are subject to seasonal variations. Harvest volume is the highest in the fourth quarter of the year while harvest volumes in the second and third quarters are relatively low due to the spawn season of certain fish species, including ribbon fish, cuttlefish, pomfret, and calamari. Based on past experiences, demand for seafood products is the highest from December to January, during Chinese New Year. We believe that our profitability and growth are dependent on the termination of the Indonesian moratorium discussed below and our ability to expand our customer base.

Significant factors affecting our results of operations

- *The Indonesian government's moratorium on local fishing licenses renewals:* In early December 2014, the Indonesian government introduced a six-month moratorium on issuing new fishing licenses and renewals so that the country's Ministry of Maritime Affairs and Fisheries ("MMAF") could combat illegal fishing and rectify ocean fishing order. In February 2015, we ceased all fishing operations in Indonesia. During the moratorium, PME was informed that fishing licenses of four vessels operated through PT. Avona Mina Lestari ("PT Avona"), one of the local companies through which PME conducts business in Indonesia, and the fishing licenses of vessels operated through PT. Dwikarya Reksa Abadi ("PT Dwikarya"), the other local company through which PME conducts business in Indonesia, were revoked. As a result and because license renewal was prohibited due to the general moratorium, all local fishing licenses of PME's vessels in Indonesia are presently inactive. The MMAF has not yet restored license issuing or renewal process for vessels built abroad. As the MMAF has not implemented new fishing policies and resumed the license renewal process, we do not know when exactly licensing and renewal will start. We have been paying close attention to any new trends in fishing policy and have been actively exploring for new cooperation models. Since we derive a majority of our revenue from this area, this ban has caused a significant drop in our production.
- *Governmental policies:* Fishing is a highly regulated industry and our operations require licenses and permits. Our ability to obtain, sustain or renew such licenses and permits on acceptable terms is subject to changes in regulations and policies and is at the discretion of the applicable government agencies. Our inability to obtain, or loss or denial of extensions to, any of our applicable licenses or permits could hamper our ability to generate revenue from our operations.
- *Resource & environmental factors:* Our fishing expeditions are based in the Indian Exclusive Economic Zone, Indo-Pacific waters, the Arafura Sea of Indonesia and international waters of Atlantic and Pacific Oceans. Any earthquake, tsunami, adverse weather or oceanic conditions or other calamities in such areas may result in disruption to our operations and could adversely affect our sales. Adverse weather conditions such as storms, cyclones and typhoons or cataclysmic events may also decrease the volume of fish catches or may even hamper our operations. Our fishing volumes may also be adversely affected by major climatic disruptions such as El Nino, which in the past has caused significant decreases in seafood catch worldwide. Besides weather patterns, other unpredictable factors, such as fish migration, may also have impact our harvest volume.
- *Fluctuation on fuel prices:* Our operations may be adversely affected by fluctuations in fuel prices. Changes in fuel prices may result in increases in the selling prices of our products, and may, in turn, adversely affect our sales volume, revenue and operating profit.
- *Competition:* We engage in the business in the Bay of Bengal in India, Indo-Pacific waters, the Arafura Sea of Indonesia and international waters of Atlantic and Pacific Oceans. Competition within our dedicated fishing areas is not currently significant as the region is not overfished or regulated by government limits on the number of vessels that are allowed to fish in the territories; however, there is no guarantee that competition will not become more intense. Competition in the consumer market in China, however, is keen. We compete with other fishing companies which offer similar and varied products. There is significant demand for fish in the Chinese market. We believe our catch appeals to a wide segment of consumers because of the low price points of our products.
- *Fishing licenses:* Each of our fishing vessels requires approval from the Ministry of Agriculture of the People's Republic of China to carry out ocean fishing projects in foreign territories. These approvals are granted annually and normally valid for a period of twelve months; when the inspection certificate of a vessel is valid for less than 12 months, the approval will be granted with the validity period equal to that indicated on the inspection certificate and will be extended to full validity period when new inspection certificate is issued. Different countries may have different policies for foreign cooperation in fisheries. Some countries require fishing licenses issued by the accessed country; some others may require establishment of a joint venture or sole proprietorship to obtain local licenses.

RESULTS OF OPERATIONS

Comparison of results of operations for the three and nine months ended September 30, 2017 and 2016

Revenue

We recognize revenue from sales of frozen fish and other marine catches when persuasive evidence of an arrangement exists, delivery has occurred, the price to the customer is fixed or determinable, and collection of the resulting receivable is reasonably assured.

With respect to the sales to third party customers the majority of whom are sole proprietor regional wholesalers in the PRC, we recognize revenue when customers receive purchased goods at our cold storage warehouse, after payment is received or credit sale is approved for recurring customers with excellent payment histories.

We do not offer promotional payments, customer coupons, rebates or other cash redemption offers to customers. We do not accept returns from customers. Deposits or advance payments from customers prior to delivery of goods are recorded as advances from customers.

For the three months ended September 30, 2017 and 2016, our revenue by species of fish was as follows (dollars in thousands, except for average price):

	Three Months Ended September 30, 2017

For the three months ended September 30, 2017, we had revenue of \$5,462,792, as compared to revenue of \$1,168,946 for the three months ended September 30, 2016, an increase of \$4,293,846, or 367%. The increase was mainly attributable to more fishing vessels put in operation. Sales volume for the three months ended September 30, 2017 increased 234% to 1,536,369 kg from 459,689 kg for the three months ended September 30, 2016. Average unit sale price increased 40.2% in the three months ended September 30, 2017 as compared to the three months ended September 30, 2016, which was primarily because marine catches are in short supply due to a longer fishing suspension period for China seas for 2017, which used to be from June to August, while for 2016 it was from May to August.

For the nine months ended September 30, 2017, we had revenue of \$46,819,813, as compared to revenue of \$7,388,395 for the nine months ended September 30, 2016, an increase of \$39,431,418, or 533.7%. Sales volume for the nine months ended September 30, 2017 increased 325.5% to 12,566,227 kg from 2,953,215 kg for the nine months ended September 30, 2016. Average unit sale price increased 49.2% in the nine months ended September 30, 2017 as compared to the nine months ended September 30, 2016, which was primarily because marine catches are in short supply due to a longer fishing suspension period for China seas for 2017, which used to be from June to August, while for 2016 it was from May to August.

Cost of revenue

Our cost of revenue primarily consists of fuel cost, depreciation, labor cost, fishing vessels maintenance fee, other overhead costs, and reserve for inventories. Fuel cost, depreciation, and labor cost generally accounted for the majority of our cost of revenue. The following table sets forth our cost of revenue information, both in amounts and as a percentage of revenue for the three months ended September 30, 2017 and 2016 (dollars in thousands):

Cost of revenue for the three months ended September 30, 2017 was \$6,768,802, representing a decrease of \$6,712,973 or 49.8% as compared to \$13,481,775 for the three months ended September 30, 2016. Cost of revenue for the nine months ended September 30, 2017 was \$36,942,905, representing an increase of \$10,888,202 or 41.8% as compared to \$26,054,703 for the nine months ended September 30, 2016. The increase was primarily attributable to the increase in our revenue, offset by the decrease in our unit production cost.

Gross profit (loss)

Our gross profit (loss) is affected primarily by changes in production costs. Fuel cost, depreciation, and labor cost together account for about 56.8% and 107.2% of cost of revenue for the three months ended September 30, 2017 and 2016, respectively. Fuel cost, depreciation, and labor cost together account for about 85.8% and 88.2% of cost of revenue for the nine months ended September 30, 2017 and 2016, respectively. The fluctuation of fuel price and change in labor cost may significantly affect our cost level and gross profit (loss).

The following table sets forth information as to our revenue, cost of revenue, gross profit (loss) and gross margin for the three and nine months ended September 30, 2017 and 2016.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Revenue	\$ 5,462,792	\$ 1,168,946	\$ 46,819,813	\$ 7,388,395
Cost of revenue	\$ 6,768,802	\$ 13,481,775	\$ 36,942,905	\$ 26,054,703
Gross profit (loss)	\$ (1,306,010)	\$ (12,312,829)	\$ 9,876,908	\$ (18,666,308)
Gross margin	(23.9)%	(1,053.3)%	21.1%	(252.6)%

Gross loss for the three months ended September 30, 2017 was \$1,306,010, representing an increase of \$11,006,819 or 89.4% as compared to gross loss of \$12,312,829 for the three months ended September 30, 2016. Gross profit for the nine months ended September 30, 2017 was \$9,876,908, representing an increase of \$28,543,216 or 152.9% as compared to gross loss of \$18,666,308 for the nine months ended September 30, 2016. The increase was due to the increase in our sales revenue and the decrease in our unit production cost of fish.

Gross margin increased to (23.9) % for the three months ended September 30, 2017 from (1,053.3) % for the three months ended September 30, 2016. Gross margin increased to 21.1% for the nine months ended September 30, 2017 from (252.6) % for the nine months ended September 30, 2016. The increase in gross margin for the three and nine months ended September 30, 2017 as compared to the three and nine months ended September 30, 2016 was primarily attributable to the decrease in our unit production cost of fish resulting from the increase in our harvest volume by deploying more fishing vessels into operations.

Selling expense

Our selling expense mainly includes shipping and handling fees, insurance, customs service charge, storage fees and advertising expenses. Our sales activities are conducted through direct selling by our internal sales staff. Because of the strong demand for our products and services, we do not have to aggressively market and distribute our products. As a result, our selling expense has been relatively small as a percentage of our revenue.

Selling expense totaled \$194,202 for the three months ended September 30, 2017, as compared to \$93,843 for the three months ended September 30, 2016, an increase of \$100,359 or 106.9%. Selling expense totaled \$761,495 for the nine months ended September 30, 2017, as compared to \$508,062 for the nine months ended September 30, 2016, an increase of \$253,433 or 49.9%. Selling expense as a percentage of revenue for the three months ended September 30, 2017 decreased to 3.6% from 8.0% for comparable period in 2016, which was mainly attributable to the increase in sales revenue. Selling expense as a percentage of revenue for the nine months ended September 30, 2017 decreased to 1.6% from 6.9% for corresponding period in 2016, which was mainly attributable to the increase in sales revenue. Selling expense for the three and nine months ended September 30, 2017 and 2016 consisted of the following:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Shipping and handling fees	\$ 21,981	\$ 8,399	\$ 221,843	\$ 97,786

- For the three months ended September 30, 2017, shipping and handling fees increased by \$13,582, or 161.7%, as compared to the three months ended September 30, 2016. For the nine months ended September 30, 2017, shipping and handling fees increased by \$124,057, or 126.9%, as compared to the nine months ended September 30, 2016. The increase was primarily attributable to the increase in our sales revenue.
- For the three months ended September 30, 2017, storage fees increased by \$54,915, or 499.8%, as compared to the three months ended September 30, 2016. For the nine months ended September 30, 2017, storage fees increased by \$68,714, or 55.0%, as compared to the nine months ended September 30, 2016. The increase was mainly attributable to the increase in our storage area.
- For the three months ended September 30, 2017, insurance increased by \$33,166, or 72.9%, as compared to the three months ended September 30, 2016. For the nine months ended September 30, 2017, insurance increased by \$10,029, or 5.2%, as compared to the nine months ended September 30, 2016. The change was mainly attributable to the different insured fishing vessels mix.

- For the three months ended September 30, 2017, customs service charge increased by \$5,526, or 100.0%, as compared to the three months ended September 30, 2016. For the nine months ended September 30, 2017, customs service charge increased by \$84,270, or 100.0%, as compared to the nine months ended September 30, 2016. The increase was mainly due to the increase in our fishing activities.
- For the three months ended September 30, 2017, advertising expenses increased by \$21,058, or 100.0%, as compared to the three months ended September 30, 2016. The change was mainly because the same payments were made in the second quarter of 2016. For the nine months ended September 30, 2017, advertising expenses increased by \$22,757, or 83.0%, as compared to the nine months ended September 30, 2016. The increase was mainly due to the increase in advertising activities.
- Other miscellaneous selling expense for the three months ended September 30, 2017 decreased by \$27,888, or 96.4%, as compared to the three months ended September 30, 2016. Other miscellaneous selling expense for the nine months ended September 30, 2017 decreased by \$56,394, or 87.5%, as compared to the nine months ended September 30, 2016.

General and administrative expense

General and administrative expense totaled \$977,603 for the three months ended September 30, 2017, as compared to \$660,700 for the three months ended September 30, 2016, an increase of \$316,903 or 48.0%. General and administrative expense totaled \$3,325,268 for the nine months ended September 30, 2017, as compared to \$3,038,984 for the nine months ended September 30, 2016, an increase of \$286,284 or 9.4%. General and administrative expense for the three and nine months ended September 30, 2017 and 2016 consisted of the following:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Professional fees	\$ 499,575	\$ 194,584	\$ 1,233,089	\$ 840,209

	<u>\$ 977,603</u>	<u>\$ 660,700</u>	<u>\$ 3,325,268</u>	<u>\$ 3,038,984</u>

- Professional fees, which primarily consist of legal fees, accounting fees, investor relation service charges, valuation service fees and other fees associated with being a public company, for the three months ended September 30, 2017 increased by \$304,991, or 156.7%, as compared to the three months ended September 30, 2016. The increase in the three months ended September 30, 2017 was primarily attributable to an increase in accounting fees of approximately \$42,000, an increase in consulting fees of approximately \$8,000 and an increase in legal fees of approximately \$250,000. For the nine months ended September 30, 2017, professional fees increased by \$392,880, or 46.8%, as compared to the nine months ended September 30, 2016. The increase in the nine months ended September 30, 2017 was primarily attributable to an increase in consulting fees of approximately \$39,000, an increase in investor relation charges of approximately \$34,000 and an increase in legal fees of approximately \$346,000, offset by a decrease in accounting fees of approximately \$41,000.
- Compensation and related benefits decreased by \$12,354, or 4.6%, for the three months ended September 30, 2017 as compared to the three months ended September 30, 2016. For the nine months ended September 30, 2017, compensation and related benefits decreased by \$99,870, or 11.1%. The decrease was mainly attributable to a decrease in salaries for our management staff of approximately \$92,000 and a decrease in benefits for our management staff of approximately \$4,000, mainly due to our strict control on corporation spending.
- Rent and related administrative service charge remained consistent for the three and nine months ended September 30, 2017 as compared to the three and nine months ended September 30, 2016.
- For the three months ended September 30, 2017, we recorded bad debt expense of \$18,532 as compared to bad debt expense of \$0 for the three months ended September 30, 2016. For the nine months ended September 30, 2017, we recorded bad debt expense of \$221,208 as compared to bad debt expense of \$0 for the nine months ended September 30, 2016. Based on our periodic review of accounts receivable balances, we adjusted the allowance for doubtful accounts after considering management's evaluation of the collectability of individual receivable balances, including the analysis of subsequent collections, and customers' collection history, and recent economic events.

- For the three months ended September 30, 2017, travel and entertainment expense decreased by \$21,057, or 33.5% as compared to the three months ended September 30, 2016. For the nine months ended September 30, 2017, travel and entertainment expense increased by \$70,371, or 67.6% as compared to the nine months ended September 30, 2016. The increase was mainly attributable to an increase in travel expense of approximately \$14,000 due to our business expansion and an increase in entertainment expense of approximately \$57,000 in order to strengthen our reputation.
- Other general and administrative expense, which primarily consist of communication fees, office supplies, miscellaneous taxes, bank service charge, depreciation, and NASDAQ listing fee. For the three months ended September 30, 2017, other general and administrative expense increased by \$27,682, or 208.3%, as compared to the three months ended September 30, 2016. For the nine months ended September 30, 2017, other general and administrative expense increased by \$61,925, or 12.8% %, as compared to the nine months ended September 30, 2016. The increase was mainly attributable to a decrease in depreciation of approximately \$276,000, offset by an increase in other miscellaneous items of approximately \$338,000. During the three and nine months ended September 30, 2016, our 13 upgraded and renovated fishing vessels were temporarily idle. We recorded the related depreciation for these 13 fishing vessels as operating expenses rather than as cost of revenue. Therefore, the depreciation for operating expenses for the three and nine months ended September 30, 2017 decreased as compared to the corresponding periods in 2016.

Grant Income

The grant income mainly consist of an incentive granted by the Chinese government to encourage the development of ocean fishing industry in order to satisfy the demand of natural seafood in China and other small miscellaneous grant income from Chinese government. For the three months ended September 30, 2017, grant income increased by \$9,274,101, or 100% as compared to the three months ended September 30, 2016. For the nine months ended September 30, 2017, grant income increased by \$21,870,227, or 14,246% as compared to the nine months ended September 30, 2016. The increase was mainly because the grant income for reimbursement of our fuel expenditure related to 2015 was received in early 2017, rather than in 2016 due to the delay in government approval process.

Loss (gain) on fixed assets disposal

Loss (gain) on fixed assets disposal represents the gain or loss on the disposal of vehicles we recorded as it incurred. The loss on fixed assets disposal was \$190,162 and \$187,709 for the three and nine months ended September 30, 2017, respectively.

Income (Loss) from operations

As a result of the factors described above, for the three months ended September 30, 2017, income from operations amounted to \$6,606,124, as compared to loss from operations of \$13,067,372 for the three months ended September 30, 2016, a change of \$19,673,496, or 150.6%. For the nine months ended September 30, 2017, income from operations amounted to \$27,626,177, as compared to loss from operations of \$22,059,840 for the nine months ended September 30, 2016, a change of \$49,686,017, or 225.2%.

Other income (expense)

Other income (expense) mainly include interest income from bank deposits, interest expense generated from short-term and long-term bank borrowings, foreign currency transaction gain, and loss on equity method investment.

For the three months ended September 30, 2017, other expense, net, amounted to \$77,006 as compared to other expense, net, of \$831,207 for the three months ended September 30, 2016, a decrease of \$754,201, or 90.7%, which was primarily attributable to an increase in foreign currency transaction gain of approximately \$483,000, an increase in gain from cost method investment of approximately \$318,000, and a decrease in interest expenses of approximately \$248,000 mainly due to the decrease in our interest bearing bank loans , offset by an increase in loss on equity method investment of approximately \$315,000.

For the nine months ended September 30, 2017, other expense, net, amounted to \$443,721 as compared to other expense, net, of \$1,841,889 for the nine months ended September 30, 2016, a decrease of \$1,398,168, or 75.9%, which was primarily attributable to an increase in foreign currency transaction gain of approximately \$1,484,000, offset by an increase in interest expense of approximately \$185,000 and a decrease in gain from cost method investment of approximately \$61,000.

Income taxes

We are exempted from income taxes for income generated from our ocean fishing operations in China for the three and nine months ended September 30, 2017 and 2016. For the three and nine months ended September 30, 2016, income taxes expense was \$0 and \$993, respectively, which was generated by Fujian Heyue's taxable income from fish reselling activities. Since February 2015, we have temporarily ceased fishing operations in Indonesian waters due to the Indonesian government's moratorium described in elsewhere in this report. In order to satisfy our customers' demand, Fujian Heyue purchased fish from a third party and resold it to our customers. We are required to pay income taxes for our fish reselling operations.

Net income (loss)

As a result of the factors described above, our net income was \$6,529,118 for the three months ended September 30, 2017, as compared with net loss of \$13,898,579 for the three months ended September 30, 2016, a change of \$20,427,697 or 147.0%. Our net income was \$27,182,456 for the nine months ended September 30, 2017, as compared with net loss of \$23,902,722 for the nine months ended September 30, 2016, a change of \$51,085,178 or 213.7%.

Net income (loss) attributable to owners of the Company

The net income attributable to owners of the Company was \$5,952,924, or \$0.08 per ordinary share (basic and diluted) for the three months ended September 30, 2017, as compared with net loss attributable to owners of the Company of \$12,823,402, or \$(0.16) per ordinary share (basic and diluted) for the three months ended September 30, 2016, a change of \$18,776,326 or 146.4%.

The net income attributable to owners of the Company was \$24,830,489, or \$0.31 per ordinary share (basic and diluted) for the nine months ended September 30, 2017, as compared with net loss attributable to owners of the Company of \$22,152,230, or \$(0.28) per ordinary share (basic and diluted) for the nine months ended September 30, 2016, a change of \$46,982,719 or 212.1%.

Foreign currency translation adjustment

Our reporting currency is the U.S. dollar. The functional currency of our parent company and subsidiaries of Merchant Supreme and Prime Cheer is the U.S. dollar and the functional currency of the Company's subsidiaries which are incorporated in China is the Chinese Renminbi ("RMB"). The financial statements of our subsidiaries which are incorporated in China are translated to U.S. dollars using period end rates of exchange for assets and liabilities, and average rates of exchange (for the period) for revenue, costs, and expenses. Net gains and losses resulting from foreign exchange transactions are included in the consolidated statements of operations and comprehensive income (loss). As a result of foreign currency translations, which are a non-cash adjustment, we reported a foreign currency translation gain of \$2,138,127 for the three months ended September 30, 2017, as compared to foreign currency translation loss of \$459,166 for the three months ended September 30, 2016. We reported a foreign currency translation gain of \$4,821,019 for the nine months ended September 30, 2017, as compared to foreign currency translation loss of \$3,831,852 for the nine months ended September 30, 2016. This non-cash loss had the effect of increasing/decreasing our reported comprehensive loss/gain and this non-cash gain had the effect of decreasing/increasing our reported comprehensive loss/gain.

Comprehensive income (loss)

As a result of our foreign currency translation adjustment, we had comprehensive income for the three months ended September 30, 2017 of \$8,667,245, compared to comprehensive loss of \$14,357,745 for the three months ended September 30, 2016. We had comprehensive gain for the nine months ended September 30, 2017 of \$32,003,475, compared to comprehensive loss of \$27,734,574 for the nine months ended September 30, 2016.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity is the ability of a company to generate funds to support its current and future operations, satisfy its obligations and otherwise operate on an ongoing basis. Our principal liquidity demands are based on the capital needs of Pingtan Fishing related to the acquisition or construction of new fishing vessels and continuously upgrading and renovating existing vessels, and our general corporate purposes. We historically relied on cash flow provided by operations and bank loans to supplement our working capital. We also receive government grants as the government incentive for encouraging development of ocean fishing industry. At September 30, 2017 and December 31, 2016, we had cash balances of approximately \$22,252,000 and \$820,000, respectively. The significant portion of these funds are located in financial institutions located in the PRC and will continue to be indefinitely reinvested in our operations in the PRC.

The following table sets forth a summary of changes in our working capital from December 31, 2016 to September 30, 2017:

	September 30, 2017	December 31, 2016	December 31, 2016 to September 30, 2017	
			Change	Percentage Change
Working capital:				
Total current assets	\$ 35,094,565	\$ 60,841,361	\$ (25,746,796)	(42.3)%
Total current liabilities	58,640,693	64,920,719	(6,280,026)	(9.7)%
Working capital:	<u>\$ (23,546,128)</u>	<u>\$ (4,079,358)</u>	<u>\$ (19,466,770)</u>	<u>(477.2)%</u>

Our working capital deficit increased \$19,466,770 to working capital deficit of \$23,546,128 at September 30, 2017 from working capital deficit of \$4,079,358 at December 31, 2016. This increase in working capital deficit is primarily attributable to a decrease in inventories, net of reserve for inventories of approximately \$5,810,000, a decrease in restricted cash of approximately \$592,000, a decrease in accounts receivable, net of allowance for doubtful accounts, of approximately \$5,787,000 due to the recovery of accounts receivable, a decrease in advances to suppliers of approximately \$3,030,000, a significant decrease in other receivables of approximately \$31,565,000 since we received the refund of prepayment made for fish goods of approximately \$30 million from a third party in January and February 2017 (see note 5), a decrease in other receivable-related party of approximately \$640,000, an increase in accounts payable of approximately \$5,955,000, an increase in accounts payable – related parties of approximately \$2,189,000, an increase in accrued liabilities and other payables of approximately \$1,074,000, and an increase in due to related parties of approximately \$2,997,000, offset by a significant increase in cash of approximately \$21,432,000, an increase in prepaid expenses – related party of approximately \$255,000, a decrease in short-term bank loans of approximately \$4,954,000 a decrease in Long-term bank loans - current portion of approximately \$5,215,000 and a decrease in accrued liabilities and other payables – related party of approximately \$8,327,000.

Because the exchange rate conversion is different for consolidated balance sheets and consolidated statements of cash flows, the changes in assets and liabilities reflected on consolidated statements of cash flows are not necessarily identical with the comparable changes reflected on consolidated balance sheets.

Cash flows for the nine months ended September 30, 2017 compared to the nine months ended September 30, 2016

The following summarizes the key components of our cash flows for the nine months ended September 30, 2017 and 2016:

	Nine Months Ended September 30,	
	2017	2016
Net cash provided by operating activities	\$ 76,346,471	\$ 3,034,888
Net cash used in investing activities	(42,645,156)	(30,088,716)
Net cash (used in) provided by financing activities	(13,194,291)	16,457,128
Effect of exchange rate on cash	924,482	(284,053)
Net increase (decrease) in cash	<u>\$ 21,431,506</u>	<u>\$ (10,880,753)</u>

Net cash flow provided by operating activities was \$76,346,471 for the nine months ended September 30, 2017 as compared to \$3,034,888 for the nine months ended September 30, 2016, an increase of \$73,311,583.

- Net cash flow provided by operating activities for the nine months ended September 30, 2017 primarily reflected our net income of approximately \$27,182,000, and the add-back of non-cash items, mainly consisting of depreciation of approximately \$6,454,000, increase in allowance for doubtful accounts of approximately \$221,000, increase in reserve for inventories of approximately \$2,640,000, loss on disposal of fixed assets of approximately \$194,000 and loss on equity method investment of approximately \$28,000, and changes in operating assets and liabilities primarily consisting of a decrease in accounts receivable of approximately \$5,929,000 was mainly due to the recovery of outstanding accounts, a decrease in inventories of approximately \$3,422,000 was mainly due to a decrease in harvest volumes as the second and third quarters is the off season for fishing industry, a decrease in advances to suppliers of approximately \$3,133,000 because we have received a partial of fishing nets and other on-board consumables which we paid in advance to suppliers in 2016, a significant decrease in other receivables of approximately \$32,218,000 mainly due to the refund of prepayment made for fish goods of approximately \$30 million received from a third party in January and February 2017 (see note 5), a decrease in other receivables – related party of approximately \$1,181,000, an increase in accounts payable – related parties of approximately \$2,024,000 due to an increase in fuel demand as a result of the growth in our production, and an increase in accrued liabilities and other payables of approximately \$855,000, offset by an increase in prepaid expenses – related party of approximately \$225,000, and a significant decrease in accrued liabilities and other payables – related party of approximately \$9,887,000 due to repayments made to our related party.

- Net cash flow provided by operating activities for the nine months ended September 30, 2016 primarily reflected the add-back of non-cash items, consisting of depreciation of approximately \$4,769,000, increase in reserve for inventories of approximately \$1,506,000, and changes in operating assets and liabilities primarily consisting of a significant decrease in accounts receivable of approximately \$9,335,000 mainly due to the collections made in the nine months ended September 30, 2016, a decrease in advances to suppliers of approximately \$298,000, a decrease in prepaid expenses – related parties of approximately \$3,434,000 primarily due to the decrease in prepayments for fuel costs made to our related parties, an increase in accrued liabilities and other payables of approximately \$930,000, and an increase in due to related parties of approximately \$8,709,000 mainly due to the significant increase in payments made by our related party on behalf of us to our vendors, offset by our net loss of approximately \$23,903,000, and changes in operating assets and liabilities primarily consisting of an increase in inventories of approximately \$1,520,000 mainly due to the increase in frozen fish and marine catches in transit in order to satisfy our customers' demand, and a decrease in accounts payable – related parties of approximately \$297,000.

Net cash flow used in investing activities was \$42,645,156 for the nine months ended September 30, 2017 as compared to \$30,088,716 for the nine months ended September 30, 2016. During the nine months ended September 30, 2017, we made payments for purchase of property, plant and equipment of approximately \$45,293,000, and made payments for equity method investment of approximately \$294,000, offset by proceeds received from government grants for fishing vessel construction of approximately \$2,942,000. During the nine months ended September 30, 2016, we made payments for purchase of property, plant and equipment of approximately \$959,000, and made prepayments for long-term assets of approximately \$44,329,000, offset by proceeds received from transferring equity method investment share of approximately \$15,199,000.

Net cash flow used by financing activities was \$13,194,291 for the nine months ended September 30, 2017 as compared to net cash flow provided by financing activities of \$16,457,128 for the nine months ended September 30, 2016. During the nine months ended September 30, 2017, we received proceeds from short-term bank loans of approximately \$12,913,000, and received advances from related parties of approximately \$2,982,000, and the payments received to decrease restricted cash of approximately \$706,000, offset by the repayments of short-term bank loans of approximately \$18,701,000, the repayments of long-term bank loans of approximately \$8,723,000, and dividend payments of approximately \$2,372,000. During the nine months ended September 30, 2016, we received proceeds from short-term bank loans of approximately \$19,000,000, proceeds from long-term bank loans of approximately \$19,000,000, and advances from related parties of approximately \$3,754,000, offset by repayments of short-term bank loans of approximately \$14,169,000, repayments of long-term bank loans of approximately \$6,217,000, increase in restricted cash of approximately \$2,538,000, and payments made for dividend of approximately \$2,372,000.

We have historically funded our capital expenditures through cash flow provided by operations, bank loans and related parties' advances. As of September 30, 2017, we have contractual commitments of RMB 31.5 million (approximately \$4,739,000) related to 2 fishing vessels construction commitment. We intend to fund the costs with cash flow from our operations and by obtaining financing mainly from local banking institutions with which we have done business in the past. We believe that the relationships with local banks are in good standing and we have not encountered difficulties in obtaining needed borrowings from local banks. Considering our available cash together with our cash inflow from gradually recovering operations and financing, we believe that it is not likely that we will not meet our anticipated cash requirements for the next twelve months.

Contractual Obligations and Off-Balance Sheet Arrangements

Contractual obligations

We have certain fixed contractual obligations and commitments that include future estimated payments. Changes in our business needs, cancellation provisions, changing interest rates, and other factors may result in actual payments differing from the estimates. We cannot provide certainty regarding the timing and amounts of payments. We have presented below a summary of the most significant assumptions used in our determination of amounts presented in the tables, in order to assist in the review of this information within the context of our consolidated financial position, results of operations, and cash flows.

The following tables summarize our contractual obligations as of September 30, 2017 (dollars in thousands), and the effect these obligations are expected to have on our liquidity and cash flows in future periods.

Contractual obligations:	Payments Due by Period				
	Total	Less than 1 year	1-3 years	3-5 years	5 ⁺ years
Related party office lease obligation	\$ 10	\$ 10	\$ -	\$ -	\$ -
Related party rental and related administrative service charge obligation	115	115	-	-	-
2 fishing vessels construction obligation	4,739	4,739	-	-	-
Short-term bank loans (1)	16,600	16,600	-	-	-
Long-term bank loans	31,973	12,084	11,904	3,917	4,068
Total	<u>\$ 53,437</u>	<u>\$ 33,548</u>	<u>\$ 11,904</u>	<u>\$ 3,917</u>	<u>\$ 4,068</u>

(1) Historically, we have refinanced these short-term bank loans for an additional term of six months to one year and we expect to continue to refinance these loans upon expiration.

Off-balance sheet arrangements

Recent accounting pronouncements

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." This guidance supersedes current guidance on revenue recognition in Topic 605, "Revenue Recognition." In addition, there are disclosure requirements related to the nature, amount, timing, and uncertainty of revenue recognition. In August 2015, the FASB issued ASU No. 2015-14 to defer the effective date of ASU No. 2014-09 for all entities by one year. For public business entities that follow U.S. GAAP, the deferral results in the new revenue standard are being effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017, with early adoption permitted for interim and annual periods beginning after December 15, 2016. The Company will apply the new revenue standard beginning January 1, 2018, and will not early adopt. The Company has analyzed the Company's revenue from contracts with customers in accordance with the new revenue standard to determine the impact on the Company's consolidated financial statements. Based on the preliminary assessment, the Company determined that there would be no material impact on its financial statements upon adopting the new revenue standard, but will increase the disclosure requirements about the Company's revenue recognition and related information. The Company plans to continue the evaluation, analysis, and documentation of its adoption of ASU 2014-09 (including those subsequently issued updates that clarify ASU 2014-09's provisions) throughout 2017 as the Company works towards the implementation and finalizes its determination of the impact that the adoption will have on its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, "Leases (Subtopic 842)." The new guidance requires lessees to recognize assets and liabilities arising from leases as well as extensive quantitative and qualitative disclosures. A lessee will need to recognize on its balance sheet a right-of-use asset and a lease liability for the majority of its leases (other than leases that meet the definition of a short-term lease). The lease liabilities will be equal to the present value of lease payments. The right-of-use asset will be measured at the lease liability amount, adjusted for lease prepayment, lease incentives received and the lessee's initial direct costs. The standard is effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted. ASU 2016-02 is required to be applied using the modified retrospective approach for all leases existing as of the effective date and provides for certain practical expedients. The Company is currently evaluating the impact on its consolidated financial position and results of operations upon adopting these amendments. Based on its preliminary evaluation, the Company expects to start recognize lease assets and lease liabilities for its operating leases on its statements of financial position as of the end of its first fiscal quarter of 2019 and its comparative period presented.

In January 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business, in an effort to clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The amendments of this ASU are effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The adoption of this guidance is not expected to have a material impact on the Company's consolidated financial statements.

In January 2017, the FASB issued ASU 2017-04, "Intangibles—Goodwill and Other (Topic 350): simplifying the test for goodwill impairment", the guidance removes Step 2 of the goodwill impairment test, which requires a hypothetical purchase price allocation. Goodwill impairment will now be the amount by which a reporting unit's carrying value exceeds its fair value, not the difference between the fair value and carrying amount of good will which was the step 2 test before. The ASU should be adopted on a prospective basis for the annual or any interim goodwill impairment tests beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The company is currently evaluating the impact of adopting this standard on its consolidated financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Commodity price risk

Oil cost accounts for approximately 25.5% and 61.5% of our total cost of revenue for the three and nine months ended September 30, 2017. We are primarily exposed to oil price volatility caused by supply conditions, political and economic variables and other unpredictable factors. We purchase oil used by our vessels at prevailing market prices. We do not have formal long-term purchase contracts with our suppliers and, therefore, we are exposed to the risk of fluctuating oil prices.

We did not have any commodity price derivatives or hedging arrangements outstanding at September 30, 2017 and did not employ any commodity price derivatives in the nine months ended September 30, 2017.

Foreign currency exchange rate risk

While our reporting currency is the USD, All of our consolidated revenue and consolidated cost of revenue and a significant portion of our consolidated expenses are denominated in RMB. Furthermore, a significant portion of our assets are denominated in RMB. As a result, we are exposed to foreign exchange risk as our revenue and result of operations may be affected by fluctuations in the exchange rate between USD and RMB.

The value of the RMB against the USD and other currencies is affected by, among other things, changes in the PRC's political and economic conditions. Since July 2005, the RMB has not been pegged to the USD. Although the People's Bank of China regularly intervenes in the foreign exchange market to prevent significant short-term fluctuations in the exchange rate, the RMB may appreciate or depreciate significantly in value against the USD in the medium to long term. Moreover, it is possible that in the future, PRC authorities may lift restrictions on fluctuations in the RMB exchange rate and lessen intervention in the foreign exchange market.

If the RMB depreciates against the USD, the value of our RMB revenue, earnings and assets as expressed in our USD financial statements will decline. A 1% average appreciation (depreciation) of the RMB against the USD would increase (decrease) our comprehensive income by \$320,000 for the nine months ended September 30, 2017 based on our revenue, costs and expenses, and assets and liabilities denominated in RMB as of September 30, 2016. To date, we have not entered into any hedging transactions to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the availability and effectiveness of these hedging transactions may be limited and we may not be able to successfully hedge our exposure at all.

Interest rate risk

We are exposed to interest rate risk arising from short-term and long-term variable rate borrowings from time to time. Our future interest expense will fluctuate in line with any change in our borrowing rates. Our bank borrowings amounted to \$48.6 million at September 30, 2017. Based on the variable nature of the underlying interest rate, the bank borrowings approximated fair value at that date.

A hypothetical 100 basis point change in interest rates would impact our earnings and cash flows by approximately \$19,000. The potential change in cash flows and earnings is calculated based on the change in the net interest expense over a one year period due to an immediate 100 basis point change in interest rates.

Inflation risk

Inflationary factors such as increases in the cost of our product and overhead costs may adversely affect our operating results. Although we do not believe that inflation has had a material impact on our financial position or results of operations to date, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross margin and selling and general and administrative expenses as a percentage of total revenue if the selling prices of our products do not increase with these increased costs.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in reports filed or submitted under the Securities Exchange Act of 1934, as amended (“Exchange Act”) is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed under the Exchange Act is accumulated and communicated to management, including the principal executive and financial officers, as appropriate to allow timely decisions regarding required disclosure. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

In connection with the preparation of the quarterly report on Form 10-Q for the quarter ended September 30, 2017, our management, including our principal executive officer and principal financial officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures, which are defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Based on this evaluation, management concluded that our internal control over financial reporting were not effective as of September 30, 2017 due to the material weakness we reported in our 2016 10-K which has not yet been remediated. In our 2016 10-K we reported that we did not maintain a sufficient complement of personnel with an appropriate level of experience and training in the application of U.S. GAAP commensurate with our financial reporting requirements.

Changes in Internal Controls over Financial Reporting

There were no changes (including corrective actions with regard to material weakness) in our internal controls over financial reporting that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On June 23, 2017, a purported securities class action complaint, Zheng v. Pingtan Marine Enterprise Ltd., Xinrong Zhuo and Roy Yu, was filed in the U.S. District Court for the Eastern District of New York alleging violations of Section 10(b), and Rule 10b-5 thereunder, and Section 20(a) of the Securities Exchange Act of 1934 (the "Complaint"). The Complaint alleges that the Company and the executive officers made materially false and misleading statements in filings with the SEC regarding the Company's business operations. The Complaint was brought on behalf of a putative class of persons who purchased or otherwise acquired Pingtan securities between August 8, 2016 and May 10, 2017 and seeks an unspecified amount of compensatory damages.

From time to time, we may be subject to legal proceedings and claims in the ordinary course of business. Currently, we are not a party to any other litigation the outcome of which, if determined adversely to us, would individually or in the aggregate be reasonably expected to have a material adverse effect on our business, operating results, cash flows or financial condition.

ITEM 1A. RISK FACTORS

Factors that could cause our actual results to differ materially from those in this report are any of the risks described in Annual Report on Form 10-K for the fiscal year ended December 31, 2016 filed with the SEC on March 23, 2017.
