Pingtan Marine Enterprise will soon Complete the Modification and Rebuilding of 27 New Fishing Vessels

The New Fishing Vessels to Be Put in Operation Successively Starting from November 2018

FUZHOU, China, Oct. 24, 2018 /PRNewswire/ -- Pingtan Marine Enterprise Ltd. (Nasdaq: PME), (hereafter referred to as “Pingtan” or the “Company”), a global fishing company based in the People’s Republic of China (PRC), today announced that the Company will soon complete the modification and rebuilding project for its 27 new fishing vessels. In April 2018, the Company announced its 27 fishing vessels have received approval from the Ministry of Agriculture and Rural Affairs of the People’s Republic of China and were expected to operate in the international waters of the Indian Ocean after completion of modification and rebuilding. As to date, the first batch of 4 from these 27 new fishing vessels have completed all inspections and are expected to be put out to sea for operation in November, and the remaining 23 new fishing vessels will be placed to designated waters and put in operation in batches.

The service of these 27 new fishing vessels are expected to significantly increase Pingtan’s total annual harvest capacity.

Management Commentary

Mr. Xinrong Zhuo, Chairman and CEO of the Company, commented: “We are glad that the first batch of four modified and rebuilt fishing vessels will sail to the international waters of the Indian Ocean for operation in November and the remaining vessels will also be deployed in batches to the designated waters for operation. These modified 27 fishing vessels are provided with advanced technical equipment and tools, 7 of which are light luring seine vessels and 20 are large-scale squid jigging vessels. We expect that the service of these fishing vessels can enrich Pingtan’s product mix while significantly improving our performance and enhancing our capacity of supply during the traditional sales peak season in the first quarter 2019.”
